STANDARD BASIC

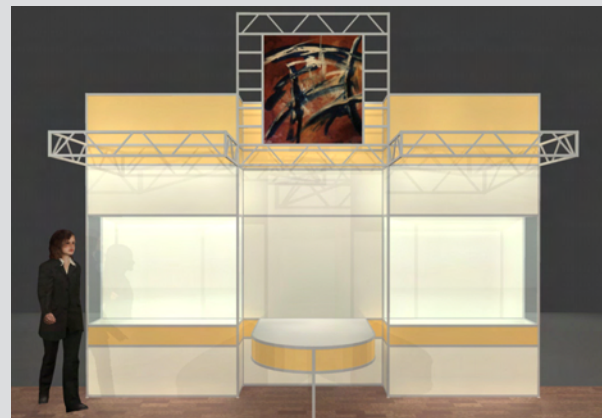

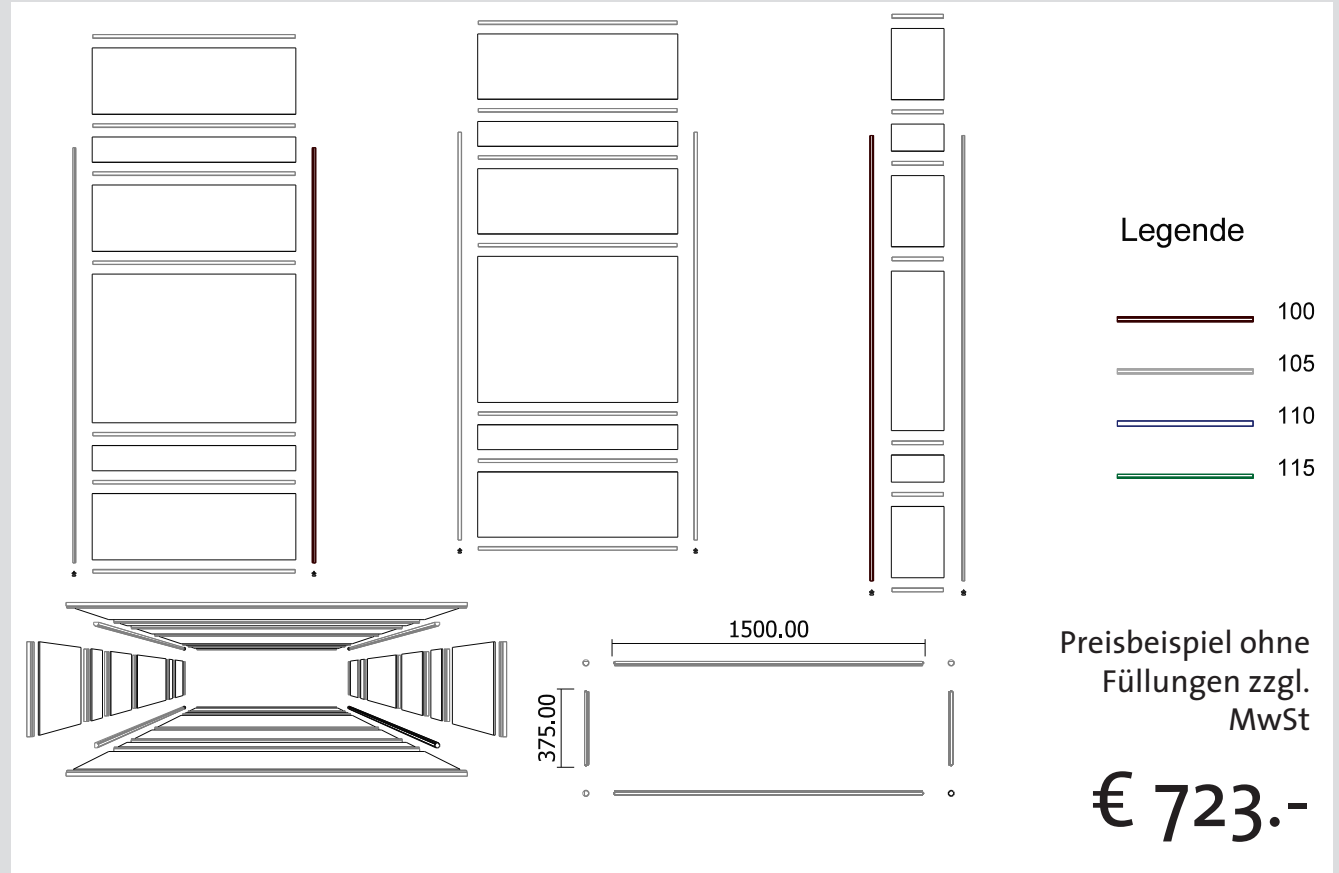

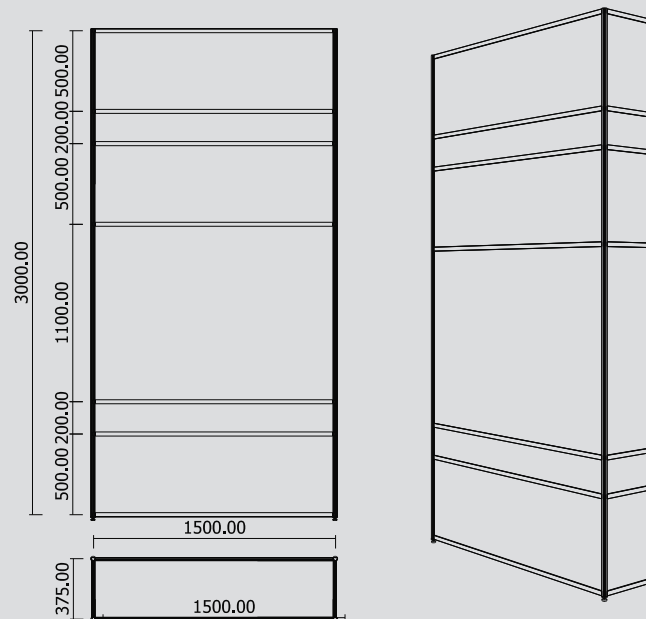

STANDARD BASIC

Dieses Stand Design basiert auf einer Vitrine, die als Leuchtkasten, Raumteiler oder als Wandelement eingesetzt werden kann. Lange Zargen erlauben maximale Grafikgrößen. Die vertikale Aufteilung ist so gewählt, dass eine bequeme Tischhöhe sowie eine geeignete Deckenhöhe erreicht werden. Hauptsächlich kommen bei diesem Design gerade Zargen, Traversen und Stützen zum Einsatz.

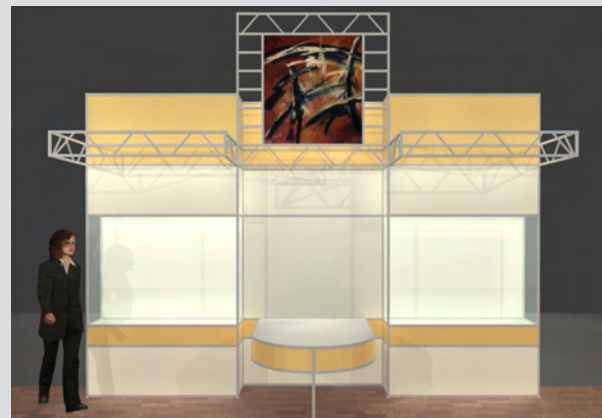

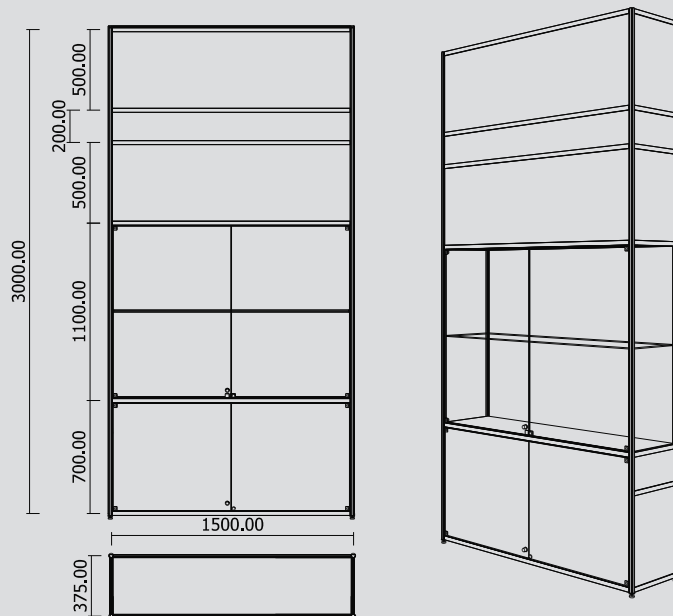

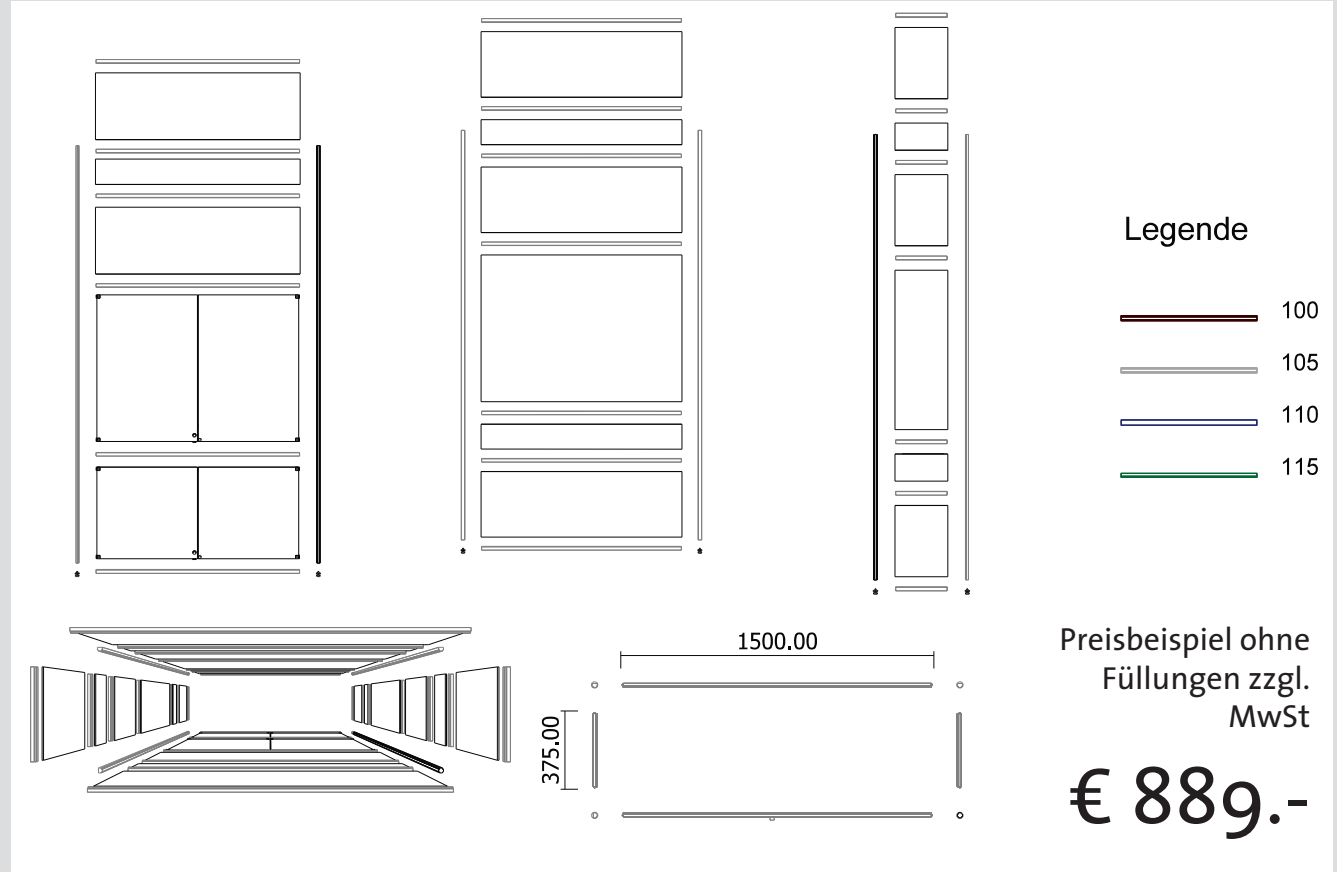

The Basic Design bases upon a showcase with straight grooves, trusses which can be used as a light box or partition wall.

Overlong grooves allow big graphic panels. The ergonomically designed partitions let you have handling desks or ceilings.
